

# Celebrate safely.

It is fun to have parties and celebrations, but it is still important to be safe.

## Fireworks:

Fireworks are dangerous and should only be touched by adults.

Have a bucket of water or sand near by.

Never go back to a firework once it has been lit.

Fireworks should be kept in a metal box.

## Bonfires:

Keep back from bonfires.

Only adults should light bonfires.

Never leave a bonfire burning and go out.

## Decorations:

Don't overload plug sockets when putting up fairy lights.

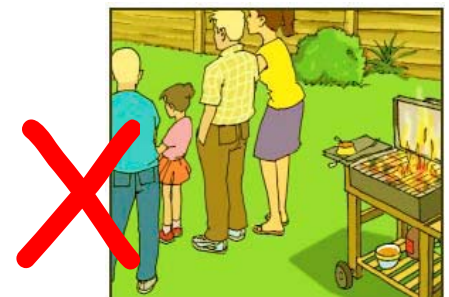

Turn fairy lights off when you go out.

Don't hang cards and paper decorations over fires and heaters.

## Barbeques:

Only adults should touch barbeques.

Never pour petrol on a barbeque.

Check what is near the BBQ. Overhanging trees and plants or being too close to a fence could be dangerous.

Never stand with your back to the BBQ
